 Capacity: 10 cycles  
 Colour: RAL5019  
 Cladding: 5mm PET  
 Finish: Powder coated  
 Fixing: Concrete base + Base plate  
 Frame: Carbon steel

## CHELSEA CYCLE SHELTER

Combining style, practicality, and economy, the Chelsea cycle shelter is one of our most popular products. By using the strongest materials efficiently and maximising available space we can fit more cycles per cubic metre, while incorporating an aesthetically pleasing shelter system to protect bikes from both wind and rain.

The frame of the shelter is constructed from mild carbon steel, a material used widely in large scale construction for its strength and durability. This material can either be galvanised, powder coated or a combination of the two for ultimate durability.

### Free Quotations and General Enquiries
